restartfitnessph.com

We are not a gym. We are a coaching system.

Restart Fitness PH is an online coaching brand built on The Restart Fitness System - a structured, repeatable process that delivers real results through training, nutrition, habits, and accountability.

The System

A reliable coaching process that remains effective, even in the absence of motivation.

Compliance

Weekly check-ins, video feedback, genuine nutrition guidance, and accountability are aspects that most online coaches fail to offer.

Clarity in Action

A unique and high-quality coaching standard, along with programs tailored specifically to clients' goals, stands out in a market flooded with generic fitness content.

Coach Jap - Japhet Felipe | Founder, Restart Fitness PH | Head Coach, Urban Strong Fitness

We do not sell access. We sell coaching.

Most people do not lack effort. They lack structure.

The market has more content than ever - free workouts, apps, YouTube programs, Instagram coaches. The missing layer is a system and someone to hold people to it.

TRIED GYMS

Paid for access. Got equipment. No coaching.

TRIED APPS

Downloaded the plan. No one corrected their form.

TRIED YOUTUBE

Found free workouts. Lost the path after week two.

TRIED MOTIVATION

Started strong. Life happened. No accountability.

TRIED GENERIC COACHES

Got a PDF program. No feedback. No follow-through.

TRIED DOING IT ALONE

Good intentions. No structure that survives reality.

What people cannot find easily is a structured, human-led coaching system that builds consistency, corrects mistakes, and stays with them.

The Restart Fitness System

A repeatable coaching process built on four pillars and a weekly loop that keeps every client on track through clarity, structure, coaching, and accountability.

01

Training

Structured programming, movement quality, and progression that makes sense for real life.

02

Nutrition

Practical, real-food guidance. No extreme diets. No calorie obsession.

03

Habits

Simple, repeatable behavior targets that build consistency without willpower.

04

Accountability

Weekly check-ins, video feedback, standards, and real adjustments from a coach.

THE FOUR-STEP PROCESS

01

Clarity

Understand goal, baseline, schedule, and starting point.

02

Structure

Build training, nutrition, habit, and check-in plan.

03

Coaching

Guide execution, correct mistakes, teach the plan.

04

Assess & Adjust

Review, adjust, reinforce, and repeat.

Every client follows the same weekly loop.

The loop is not a concept. It is the product. Every active client moves through this sequence every week - no exceptions, no guessing.

- 01 Follow the assigned training plan
- 02 Complete nutrition and habit actions
- 03 Submit training videos when required
- 04 Complete the weekly check-in
- 05 Coach reviews progress
- 06 Coach gives feedback and adjustments
- 07 Client follows next week's action plan

THE STANDARD

High-care. High-standard. Responsive and structured. Real feedback, not automated replies. Adjustments based on what actually happened that week. Clients are not left to guess. They are coached through it.

We do not sell workouts. We provide a system that works when motivation does not.

The goal is not just results. The goal is results you can keep.

CONSISTENCY

Weekly training habits that survive bad weeks, difficult schedules, and life.

MEASURABLE PROGRESS

Strength, body composition, energy, and completion rates tracked and adjusted.

REAL NUTRITION

Practical food choices that fit real Philippine life - no crash dieting.

LONG-TERM RESULTS

Clients leave with skills, habits, and a system they can maintain independently.

Client Proof Library: strength progress, body composition improvement, habit consistency, improved energy and sleep, sustainable nutrition behavior, long-term adherence, and fat loss when relevant to the campaign.

Health is non-negotiable. We train for function, longevity, and quality of life - not just aesthetics.

One system.

Multiple entry points.

Every offer runs on The Restart Fitness System. Clients choose the level of support, duration, and coaching depth that fits their goal and starting point.
